POTENCY YOU CAN FEEL,
RESULTS YOU CAN SEE,
THE BRAND YOU CAN TRUST!

ALL SCITEC NUTRITION supplements are manufactured in the **SCITEC factory on 18,000 m²** (the size of 3 entire football fields).

SCITEC products are lab test guaranteed for purity and potency, with results proudly posted on our website.

We have the best tasting products and the widest variety of unique flavors. **Over 80 million servings of whey protein will be sold in 2012!**

All SCITEC products are "Doping Free", so you don't have to worry about failing a doping test.

SCITEC NUTRITION WORKS!

ALL LEVELS, ALL STARTING POINTS, ALL GOALS

1. Unsolicited "before & after" transformations from real-life users of SCITEC NUTRITION!

2. Controlled and monitored transformations of hundreds of subjects conducted by SCITEC NUTRITION using custom designed protocols of supplements, training and nutrition!

3. TEAM SCITEC competitive athletes consistently exceed their previous best performances and appearance! (Over 30 athletes from USA, Canada, Europe and the rest of the world.)

- A GREAT MULTI-PURPOSE FORMULA FOR ANY TIME!

- GREAT FOR NIGHT-TIME USE ALSO!
- SUPREMELY DELICIOUS FLAVORS!
- GREAT VALUE!
- ASPARTAME FREE!

PROTEIN VITAL is a designer blend of the 4 best animal proteins, moreover, we added the digestive enzymes Papain and Bromelain to maximize absorption! No inferior plant proteins in this formula, only the best, highest-biological value animal sources! These sources have various amino acid and absorption time profiles, and different anabolic/anti-catabolic characteristics from fast-digesting anabolic to slow-digesting anti-catabolic.

Since the amino acid compositions and absorption kinetics complement each other, the end result is an all-around, balanced protein formula that can be used any time during the day, including before going to bed. This also means that PROTEIN VITAL is great for both the muscle gaining and dieting training phases!

New, delicious flavors!

- Strawberry white chocolate
- Milk chocolate
- French vanilla
- Chocolate hazelnut
- Strawberry cream

THE BEST FAST- AND SLOW-ABSORBING MILK PROTEINS!

100% WHEY COMPLEX

WHEY DOMINANT FUSION OF MILK
PROTEINS WITH DIGESTIVE ENZYMES

Whey proteins are the fastest absorbing
sources that are great in the morning
around training for example.

100% CASEIN COMPLEX

UNDENATURED MICELLAR CASEIN
BASED CASEIN COMPLEX

The Casein milk protein is a slow-digesting
type (as opposed to fast whey proteins)
that provides a sustained release
of amino acids into the bloodstream
possibly up to 7-8 hours (all through
the night for example).

THE PERFORMANCE FAT BURNER!

BURN FAT AND INCREASE YOUR GYM PERFORMANCE!

AEROB-X

- **Stop Suffering** - You're working too hard without getting the results you deserve.
- **Reward Yourself** - Start working smart and experience the rapid and sustained fat burning effects only AEROB-X and its sophisticated, synergistic formula provides.
- **Feel and see the Aerob-X Difference:**
Get more out of every training session. Elevate energy levels, mental focus and develop the "faster metabolism" you've always wanted.

DIET PROTEIN SHAKE

WITH FAT BURNERS AND PREBIOTIC FIBER

EASY DIET

- **Easy Diet** is a scientifically designed "appetite suppressing" protein formula with fiber.
- **Potent fat burning compounds** combine with metabolic enhancers so you can:
 - Manage Hunger and Feel Great
 - Burn Fat for energy
 - Maintain lean body mass

FROM THE MAKERS OF SCITEC NUTRITION

NEW FORM

NEW SCITEC PRODUCTS!

CORTISOL HORMON-OPTIMIERER!

ANTI-CORTISOL

- PHOSPHATIDYLSERINE BASED FORMULA FOR THE MANAGEMENT OF CATABOLIC CORTISOL AND FOR OPTIMIZED BRAIN FUNCTIONS!
- ENHANCE RECOVERY, ATTENUATE MUSCLE SORENESS, IMPROVE WELL-BEING!
- PROVIDES ERGOGENIC BENEFITS FOR ATHLETES!
- WITH EXTRA INGREDIENTS FOR SYNERGISTIC BENEFITS WITH PHOSPHATIDYLSERINE!

Anti-Cortisol is a Phosphatidylserine based formula for the management of catabolic cortisol and for optimized brain functions. Phosphatidylserine is needed for normal cellular structure and functions especially in brain tissues - it's important for cell membrane fluidity and brain plasticity ("youthfulness").

Also, Phosphatidylserine can be used to lower cortisol levels. Cortisol is an important catabolic hormone, but the stresses of modern living - including training stress - usually results in chronically elevated cortisol levels that is very unhealthy and can deteriorate the look of the body (stubborn fat depots, water retention, etc.) Phosphatidylserine has been shown to enhance recovery, attenuate muscle soreness, improve well-being, and may provide ergogenic properties for athletes.

In the Anti-Cortisol formula Glutamine, Glycine and Vitamin C are also added to provide synergistic benefits with Phosphatidylserine!

Supplement Facts

Serving size: 1 capsule

Servings per Container: 90

Amount Per Serving	% Daily Value	
Glycine	200 mg	†
L-Glutamine	200 mg	†
Phosphatidylserine from Soy Lecithin 20%	120 mg	†
Vitamin C	60 mg	75%

† Daily Value not established.

NEW SCITEC PRODUCTS!

**ULTRA-HIGH DOSE AND
CONCENTRATION FORMULA!**

TRIBU 2000

Testosterone is an incredibly important male hormone that boosts muscle mass, strength and fat burning, and also increases libido and vitality! Subpar nutrition, training, aging and harmful environmental toxins can all decrease Testosterone and sperm production!

Our TRIBU 2000 formula provides a super-stong 2000 mg dose of Tribulus Terrestris with 90% total Saponins, including 20% Protodioscin content so it's a very concentrated source of these active ingredients. Tribulus Terrestris stimulates Luteinizing Hormone (LH) production in the anterior pituitary gland, which in turn stimulates your own testosterone production. Research indicates that the steroidal saponins, particularly Protodioscin, are responsible for the pharmacological activities of Tribulus.

Supplement Facts

Serving size : 1 tablet

Servings Per Container : 70

Amount Per Serving		% Daily Value
Tribulus Terrestris	2000 mg	†
(Containing 90% total Saponins, including 20% Protodioscin)

NEW SCITEC PRODUCTS!

EXTREME BODY RECOMPOSITION FORMULA!

LEAN BOSS

- LOSE FAT, GAIN HARD MUSCLE!
- 3 SCIENTIFICALLY PROVEN RECOMPOSITION AGENTS!
- IMPROVE PERFORMANCE AND RECOVERY!

LEAN BOSS is an extreme body recomposition and performance booster formula, meaning that it will help you lose fat and gain hard muscle, while providing a serious edge in training and recovery!

LEAN BOSS increases anaerobic and aerobic capacity (strength and endurance), oxygen uptake, dry muscle mass, and torches bodyfat!

LEAN BOSS affects muscle anabolism (pure muscle building) and fat burning. It's a powerful, non-hormonal anabolic and anti-catabolic agent!

LEAN BOSS can increase nitrogen retention and protein synthesis, two crucial factors in the accrual of muscle tissue!

LEAN BOSS causes no water weight gain or bloat!

† Daily Value not established.

NEW SCITEC PRODUCTS!

THE FASTEST-ACTING SMALL PEPTIDE AMINO ACIDS!

FLASH AMINOS

Despite the popular belief that single isolated (“free”) amino acids are the fastest absorbing and most useful nutrients to support muscles, the scientific truth is somewhat counterintuitive: small chains of amino acids – peptides – are the fastest absorbing “proteins”, amino acids, because there are specific transporters for them in the digestive system!

These peptides are absorbed much faster than any intact protein or even single amino acids! The almost instant, “flash” delivery of these nutrients to muscles ignites the rebuilding phase after training, resulting in very fast recovery and increased growth.

Taken before and during exercise FLASH AMINOS effectively increases the time to fatigue and helps to increase physical performance.

Supplement Facts

Serving size: 10 capsules

Servings Per Container: 20

Amount per serving	% DV	Amount per serving	% DV

- INCREASES PERFORMANCE WHEN TAKEN PRE-WORKOUT!
- HELPS TO RELOAD GLYCOGEN STORES AFTER EXERCISE!

NEW SCITEC PRODUCTS!

UNIQUE NON-STIMULANT PUMP AND PERFORMANCE BOOSTER!

PUMP 'N' GO

- INCREASE PERFORMANCE, RECOVERY, LEAN MASS GAINS!
- SUPPORT INCREASED BLOOD FLOW AND AMINO ACID DELIVERY TO MUSCLES FOR HIGHER PROTEIN SYNTHESIS (MUSCLE GROWTH)!
- ENHANCE ENERGY PRODUCTION AND CELL VOLUMIZATION!
- NO POTENTIAL SIDE EFFECTS, JUST PURE PERFORMANCE!
- VERY STRONG DOSE!
- NON-STIMULANT, CAN BE USED ANY TIME!

Pump 'n' Go is a unique pre-workout pump and performance booster formula. Pump 'n' Go provides a cutting-edge, "clean" solution! It contains no stimulants, therefore the development of truly skin-bursting pumps is not hindered by vasoconstriction; moreover the product's usage doesn't add to the body's overall stress! Our formula is not based on typical ingredients like Arginine. The truth is that for Nitric Oxide (NO) production that results in maximum vasodilation (pumps), Citrulline Malate and Glycine Propionyl L-Carnitine (GPLC) are much better choices! University research has proven that oral dosing of 4.5 grams of Glycine Propionyl L-Carnitine can increase Nitric Oxide as much as 30 grams of Arginine intravenously!

If you want no potential side effects, just pure performance and maximum pumps any time, Pump 'n' Go is your choice!

Supplement Facts

Serving size : 10 g (approx. 1 tablespoon) Servings Per Container : 16

Glycine Propionyl L-Carnitine	2250 mg	†

† Daily Value not established.

NEW SCITEC PRODUCTS!

ULTRA BIO-CONCENTRATED CREATINE!

KING CREATINE

Creatine Hydrochloride is the greatest known Creatine form, it's an ultra bio-concentrated Creatine! With any form of Creatine, solubility and therefore utilization are really the issue! If substances are not in solution, they won't get into your bloodstream. Creatine Hydrochloride has 59 times greater solubility than Creatine Monohydrate (approx. 89 g vs 1.5 g per 100 ml fluid)!

In studies, actual Creatine blood concentrations were found to be significantly greater with Creatine Hydrochloride, its bioavailability is over 60% greater than that of Creatine Monohydrate.

Getting Creatine into the bloodstream and to the "gates" of cells are important steps, but for maximum effect, it has to get into the cells. For this reason, we added the insulin mimicking and potentiating Alpha Lipoic Acid. The essential amino acid Lysine boosts the overall anabolic effect of our formula!

Supplement Facts

Serving size: 1 capsule Servings Per Container: 120

Amount per serving		% Daily Value
Creatine Hydrochloride	1000 mg	†
L-lysine	100 mg	†
Alpha Lipoic Acid	25 mg	†

† Daily Value not established.

- HARD-HITTING DOSE OF CREATINE HYDROCHLORIDE!
- THE GREATEST SOLUBILITY & BIOAVAILABILITY CREATINE!
- KING CREATINE FAR EXCEEDS CREATINE MONOHYDRATE!
- TYPICAL NEGATIVE SIDE EFFECTS OF CREATINE MONOHYDRATE ARE RULED OUT!
- WITH EXTRA INGREDIENTS FOR MAXIMUM UTILIZATION!

NEW SCITEC PRODUCTS!

**INSANE PUMPS WITH OUR EFFERVESCENT
CREATINE NITRATE FORMULA!**

SWOLE-FX

- POTENT DOSE OF CREATINE NITRATE!
- DOUBLE BLAST: CREATINE + NITRATE CHEMICALLY BONDED!
- HIGH-TECH EFFERVESCENT DRINK DELIVERY SYSTEM!
- QUICKEST EFFECT, GREAT INGREDIENT UTILIZATION!
- INSANE, SUSTAINED PUMPS & RADICAL WORKOUT ENERGY!
- WITH VITAMIN C TO AVOID ANY POTENTIAL NITRATE TOLERANCE!
- ASPARTAME FREE!

Creatine Nitrate is a Creatine with a chemically bonded Nitrate molecule. It causes immense intracellular hydration (water retention inside muscle cells) instead of outside of them. But the really radical difference is that Nitrate stimulates Nitric Oxide (NO) production via an entirely different mechanism than traditional NO stimulants (the Arginine family). In addition to the "Arginine-NO Synthase" pathway, SWOLE-FX also "blows up" the "Nitrate-Nitrite-Nitric Oxide" pathway that doesn't require the NOS enzyme that can down-regulate. The Nitrate pathway is more favorable, especially in acidic and hypoxic conditions and according to scientist: "The nitrate-nitrite-NO pathway is emerging as an important mediator of blood flow regulation, cell signaling, energetics and tissue responses to hypoxia."

The SWOLE-FX high-tech effervescent delivery system also provides Arginine for the other NO pathway, and also to further boost performance. With effervescent delivery, oral Arginine is much more potent than regular Arginine!

Also, our delivery system allows very quick effect onset and great ingredient utilization!

If you need sustained, insane pumps and radical workout energy, our „nitabolic" SWOLE-FX formula is your weapon!

Supplement Facts

Serving size: 1 packet

Servings Per Container: 30

Amount per serving		%Daily Value

NEW SCITEC PRODUCTS!

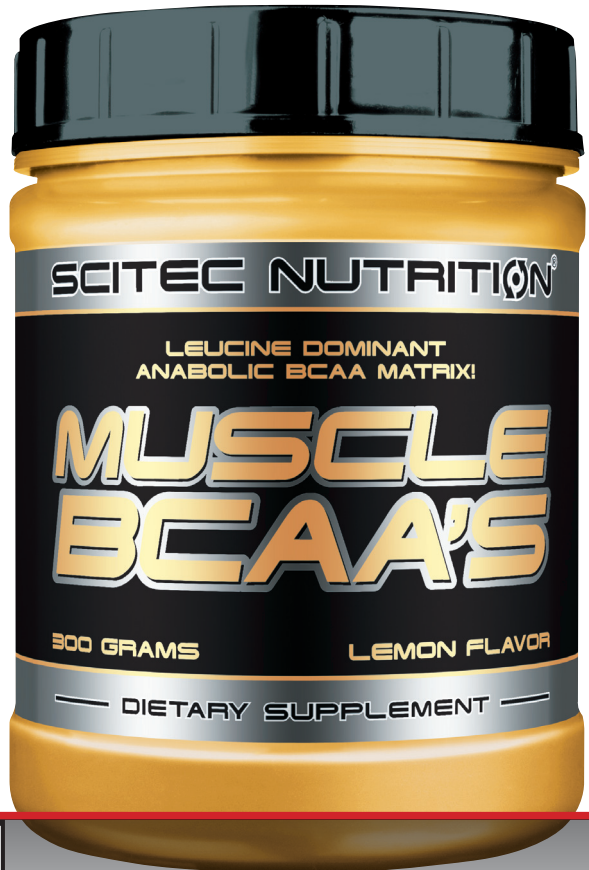

LEUCINE DOMINANT ANABOLIC BCAA MATRIX!

MUSCLE BCAA'S

- THE MOST CRUCIAL AMINOS FOR MUSCLE GAIN AND RETENTION!
- TRULY OPTIMIZED TO DIRECTLY BOOST PROTEIN SYNTHESIS!
- ENERGIZE YOUR MUSCLES!
- IMPROVE YOUR RECOVERY!
- AN ADVANCED FORM OF L-GLUTAMIN ADDED!
- WITH VITAMIN B6 TO MAXIMIZE UTILIZATION!

Everybody's aware of the importance of essential amino acids, especially the so-called Branched-Chain Amino Acids. Standard BCAA products typically contain a 2:1:1 ratio of Leucine, Isoleucine and Valine. However, cutting-edge science has proven that Leucine is the most important amino acid, because it directly stimulates muscle protein synthesis!

Taking this information into account, the new standard for BCAA's is a dominant ratio of Leucine, 8:1:1 to the other BCAA's. With this ratio, you don't have to increase the total product dosage to get optimal levels of Leucine!

Supplement Facts

Serving size: 10 grams (approximately 1 heaping scoop)

HOS

HORMON OPTIMIZATION SYSTEM

For more muscle, a more chiseled look and enhanced sexual performance, this stack will deliver!

Taking these 3 products simultaneously makes it possible to have maximum results both in phases of training for lean muscle mass and strength, and also when dieting to shed the most bodyfat! The naturally possible fastest rate of actual muscle building, or a „hard looking“ physique will be the result.

Ingredients (altogether in the 3 products): D-Aspartic Acid, N-methylglycine, L-Leucine, Alpha-Hydroxy-Isocaproic Acid (HICA), Beta-Hydroxy Beta-Methylbutyrate (HMB), Calcium D-Glucarate, Diindolylmethane (DIM), Tribulus Terrestris.

- The complete stack for a maximally anabolic environment and health!
- Non-hormonal anabolic boost (protein synthesis)!
- Testosterone and growth hormone (GH) boost!
- Estrogen management!
- All legal and natural!

MEGA BCAA 1400
90 and 180 capsules

- THE MOST CRUCIAL AMINOS FOR MUSCLE GAIN AND RETENTION!

- DIRECTLY BOOST PROTEIN SYNTHESIS!

- ENERGIZE YOUR MUSCLES!

- IMPROVE YOUR RECOVERY!

The Branched-Chain Amino Acids are essential both in a strict sense – our bodies can't manufacture them – and because during stress like training or lack of optimal nutrition they are used up first by the muscles.

Leucine is one of the essential aminos that belongs to the BCAA group. Cutting-edge scientific results prove that leucine is one of the most important aminos, because it directly stimulates skeletal muscle protein synthesis – high leucine levels in the body is a signal for the anabolic state. Leucine promotes recovery and protects muscle tissues from breakdown (anti-catabolic effect). Leucine has been found useful even when the overall dietary protein intake is high, and even when you combine it with fast digesting protein shakes. BCAA's can also be used by muscles for energy when engaging in high intensity activity.

CHOOSE SLOW-DIGESTING CASEIN WITH YOUR WHEY PROTEIN FOR A FULL-DAY AMINO ACID SUPPLY.

THE SCITEC PROTEIN MATRIX IS EVEN MORE SOPHISTICATED!

Our protein products are prime quality! Our whey containing products utilize an "instantly soluble" protein, rather than the regular whey-concentrate. As the digestive process is optimal under wet circumstances, it is essential for protein to be highly soluble! This instant whey protein is the king of all proteins on the market, as it dissolves and doesn't foam when shaken.
